On Tuesday, August 30, at 5:37 and 5:47, High water at 6:18 a. m. and 7:09 p. m.

**SKETCHES PROBABILITY.**—For this season, the weather is expected to be: for Tuesday, southerly winds.

**THE THIRD REGIMENT TO BE MUSTERED OUT.**—On Saturday Mr. C. C. Carlin sent a telegram to Governor Tyler asking his excellency if he would consent to the mustering out of service of the Third Virginia Regiment. Mr. Carlin stated in his dispatch that at least ninety per cent. of the regiment were in favor of such a course. The Governor replied to the telegram yesterday by announcing his consent to the procedure proposed by the Secretary of War. Mr. Carlin and Mr. Park Agnew, this morning took the telegram to the War Department and, in the absence of the Secretary of War, had an interview with Acting Secretary Mikeljohn. The latter referred the two gentlemen to the Adjutant General, who said the matter of mustering out of any of the Virginia troops had not been considered. He, however, would be glad to act in accordance with the wishes of Messrs. Carlin and Agnew should they meet with the approval of the Secretary of War. These gentlemen then communicated with Secretary Agnew, and the latter immediately telegraphed his consent and at 11:15 this morning Acting Secretary of War Mikeljohn signed an order for mustering out the regiment. Messrs. Carlin and Agnew thanked the Secretary and sent a telegram of congratulation to the members of the Third Regiment.

**A SUNDAY TRIAL.**—A young man belonging to the troops passing through the city yesterday concluded to lay in a supply of the ardent and in pursuance of this idea he gently idled into the side door of an uptown saloon keeper's establishment and procured not one but several bottles of that elixir which both cheers and inebriates. Possibly under the ordinary circumstances of a toxicological spirit the offense might not have been noticed, but the attenuated physique of the man when he entered the saloon and his abnormal obesity attracted the attention of Officer Wilkinson, who, marveling greatly at so wonderful a morphosis, instituted an investigation that resulted in the discovery of four or five bottles of whiskey secreted about the stranger's person. An arrest of the saloon keeper followed, but the only evidence was the man to whom he had sold the liquor, and that man could be secured by being held until 9 o'clock Monday morning, at which time his command would have been on the camp ground in Pennsylvania and he in Alexandria—a stranger in a strange land—or the Mayor might see aside his hitherto unbroken rule and have a Sunday trial in the police court. The latter alternative was chosen, the case was tried and the accused acknowledged his fault, but urged in extenuation that the witness had represented that the liquor was wanted for sick soldiers and that he, the saloon keeper, was a patriotic sympathizer for the country's defenders, had allowed him to have it. The Mayor commended these eloquent utterances, but said the law did not accept such justification and that the fact of two dollars being paid for the whiskey would militate somewhat against the sympathetic patriotic theory. A fine under the corporation ordinance of ten dollars was imposed.

**CHARGES AGAINST AN OFFICER.**—Officer Lyles was reported to the Mayor for not being at his station on Sunday morning at 6 o'clock when the lieutenant placed his men. The policeman's statement was that at 5:45 o'clock Sunday morning he was taken with a severe attack of cramps and had to return home for relief, but that he took the precaution to ask his wife to inform the department of the fact and his wife forgot to do so. The Mayor accepted the explanation, but in doing so he said that it was incumbent upon the lieutenant and sergeant to make reports to him of all cases of this character just as much so as it was for him, the Mayor, to report the lieutenant and sergeant to the man on duty at the station house should not be sufficiently explicit for him. The Mayor informed them that the rules bore upon all alike, and no one who was doing his duty would complain about rules.

**RESIGNATION WITHDRAWN.**—At the morning service in the Baptist Church yesterday Rev. J. H. Butler, the pastor, who a few weeks ago tendered his resignation, said he had come to reconsider his determination, and therefore had concluded to withdraw the resignation and remain in charge of the church. He states that "misapprehensions had found their way into print. The church was comparatively free from debt and was not pressed by it. No causes of division existed and the congregation was one of the largest in the city, with all its activities unimpaired." He further stated that he had received many marks of kindly interest, not only among Baptists, but from all portions of the community. In fact he had not expected such demonstration. The stars are in the heavens by day and by night, but it is in the darkness that they shine." Grateful to all, he said he would continue his ministrations at the Baptist church among the people of Alexandria.

**POLICE COURT.**—Mayor G. L. Simpson presiding. The following cases were decided this morning: John Pines, colored, arrested by Officers Trow and Arrington, charged with disorderly conduct, was fined \$5. Mary Fields, colored, arrested by Officers Trow and Arrington, charged with disorderly conduct and fighting, was dismissed. A man, arrested by Officers Beach and Arrington, charged with disorderly conduct, was fined \$5. George Blackwell, colored, arrested by Officers Lyles and Wilkinson, charged with assaulting and beating Martha Blackwell, was fined \$5. Samuel Washington, arrested by Officer Young, charged with an assault on Ruth Fawcett, was dismissed. Edward Fields, colored, charged with hitting a branch of the peace, was fined \$5. Night Bazaar.—Last night was cloudy and mild, until about 12:30 o'clock, when it became clear. Two prisoners and two lodgers were at the station house.

## MONETARY AND COMMERCIAL.

NEW YORK, Aug. 29.—The stock market opened under the influence of the reactionary spirit. The announcement of larger purchases of gold in London for American account tended to steady the market against attack and some rallying disposition was developed. Speculation was feverish and irregular. Efforts to depress prices were kept up at intervals. Government bonds and railroad bonds were irregular.

Instead of the old fashioned manner of screwing down and tightening tops, with the resultant breakage of jars and cuts and burr of hands, it is necessary only to place the top evenly on the jar after hot fruit has been poured and secure with clamp until cool, when it will be found firmly fastened. The removal of cover is correspondingly simple—a slight puncture, a knife blade or pin under edge—anything to permit ingress of air—and the story is told. The demonstration how going on in our Housefurnishing Department will show the ease with which these jars can be filled and closed and will immediately attract all interested in preserving.
